

MASTER of BUSINESS ADMINISTRATION (MBA) INTERNATIONAL BUSINESS (International Program)

In cooperation with the University of Technology Sydney (UTS), Australia for a Study Tour

ABOUT THE PROGRAM

An MBA in International Business will help improve your business acumen by developing competencies and techniques for a fast paced career in global business management.

The modern multinational manager not only deals with traditional domestic business functions and values, but also needs to possess the necessary skills for working in an international environment. These skills are often specialist, complex and require a great deal of knowledge to understand different cultures, ethics and politics amongst others, in a challenging but rewarding career in International Business.

This program is ideal for managers already engaged in activities on an international basis, and also for those business executives who wish to develop professionally and improve promotional prospects.

TEACHING METHODS

Through thought provoking courses, students are exposed to a professional development approach which will result in gaining further knowledge and managerial competencies. Students are expected to participate actively throughout the program. Faculty consists of industry professionals together with leading academics within Thailand.
